TASAKI (TASAKI & Co., Ltd.; Kobe Headquarter Office: 6-3-2 Minatojima Nakamachi, Chuo-ku, Kobe; Tokyo Headquarter Office: 5-7-5 Ginza, Chuo-ku, Tokyo; Board Director & CEO: Toshikazu TAJIMA) is to launch new jewellery from the TASAKI COLLECTION LINE designed by Thakoon Panichgul on Tuesday, September 5<sup>th</sup>, 2017. The new jewellery has a "flatland" theme and possess a two-dimensional style portraying the beauty of natural form.

The designs employ a variety of flowers to express feminine beauty. They have a modest two-dimensional expression that when viewed from the front complements their beauty in a graphical manner. Thus, the "flatland" jewellery is a two-dimensional work of art. The designs come in 9 series that were inspired by the colours and scents of gorgeous flowers in bloom.

"chorus valley" utilizes diamonds and Akoya pearls to create a lovely lily of the valley, "nepenthes" uses South Sea Pearls (Black) to form the carnivorous plant of the same name bewitchingly, while the magnificent of the "dahlia" stems from the vividness and colours of its rubies and yellow sapphires.
